SUMMARY

Enthusiastic and self-motivated Software Engineering student (7th Semester) with hands-on experience in full stack web development. Skilled in HTML, CSS, JavaScript, React.js, Next.js, and MongoDB. Eager to secure an internship opportunity to apply my knowledge and further develop my skills in a collaborative environment.

PROJECT EXPERIENCE

Weather App - Personal Project

- Developed a real-time weather app using HTML, SCSS, and JavaScript.
- Integrated weather API to fetch and display current conditions and forecasts.

Responsive eCommerce Website

- Built a responsive eCommerce website using React, Tailwind CSS, and Next.js.
- Implemented dynamic product listings with smooth client-side routing.
- Designed an intuitive user interface with a focus on performance and scalability.
- Added shopping cart functionality and structured the app for future feature integration.

SKILLS

- | | | |
